Bio

Mr. Dilday joined HagerSmith in 2000 with a strong background in design, code compliance, and construction. His expertise lies in his education, service as a Marine Corps Captain and aviator, employment as a code enforcement official, owning a residential construction company and being a project manager for a commercial construction company. The practical knowledge gained through this broad experience base provides a well rounded perspective to the overall construction process.

Education

North Carolina State University | Bachelor of Environmental Design in Architecture

Registration

NC Department of Insurance, Certification - Level III Code Enforcement Official (Building)

Construction Specifications Institute - Certified Construction Contract Administrator
