Bio

Mr. Legnosky joined HagerSmith Design in 2007 with a varied background in the construction industry, a strong attention to detail, and the ability to manage a wide variety of project types. He has overseen numerous types of projects as operations team lead for a local computer data center, foreman for a prestigious landscape installation company, and as a nuclear plant technician for the US Navy. His varied experiences provide strong organizational skills and the ability to manage projects efficiently from start to finish.

Education

North Carolina State University | Bachelor of Science in Horticulture, Residential Landscape Design

Wake Technical Community College | Associates Degree in Architectural Technology
